

## WAHEED OPEMIPO ODUBAYO

13502 Sarento Village ▪ Sugar Land, TX 77498 ▪ (732) 668-7066 ▪ [wodubayo@gmail.com](mailto:wodubayo@gmail.com)

### PROFESSIONAL PROFILE

**Agile Software Engineer** with 6 years experience of **C#.Net web development experience**; looking to help a company improve its **SDLC & Engineering practices** using my skills and leadership qualities

### SUMMARY OF SKILL SETS

#### Software Development

- 5 years of core Object **Oriented Database Software Development** on ASP.NET and 32 bit application projects using **C#, NET 3.5 - 4.0, and Linq to SQL ORM**
- Frontend application design and development using technologies like **Sencha EXT.js framework, JavaScript, HTML. CSS, JQuery**
- Experience writing web services and ASP.NET WebAPI with **JSON**
- Source code management with **Tortoise SVN and Git**
- Web deployment using **MS Build**
- Web application hosting using **IIS 7**
- Report design and development with **SQL Server Reporting Services, DynamicPDF and Crystal Reports.**
- Solid experience with database modeling and data structures.
- Solid experience writing **Microsoft Sql Server SQL** stored procedures, views, function and TSQL.
- Stored procedure troubleshooting using **Microsoft SQL Profiler**
- Solid **ETL** experience with Microsoft Data Transformation Services.
- In-depth knowledge of Software Development Life Cycle (**SDLC**), having thorough understanding of various phases such as Requirements gathering, Analysis/Design, Development and Testing. Extensively involved in all SDLC phases from project initiation to deployment.

#### Analysis & Design/Engineering

- **Skilled at creating** Use Case Models, Analysis Models, Design Models, Implementation Models, Use Case Diagrams, Behavior Diagrams and Class Diagrams **using UML.**
- Knowledge of Agile Software Development Processes with Scrum Model
- Agile issue and project Tracking with **Jetbrains Youtrack**

### Technical Skills

Methodologies	SDLC, Agile, UML
Agile Methods	Agile Practices, Scrum
Modeling Tools	Microsoft Visio 2013, MS office, UML Tools
Project Management/ALM	Microsoft Office, Microsoft Project,
OOP Development	C#,Sencha Ext.Js, SQL, C++, C, LINQ .NET framework, WINFORMS, Python
Web Technology	ASP.Net, Java Script, JQuery, XML, JSON, HTML, Web services
ALM/Agile/Scrum Tools	Jetbrains Youtrack

RDBMS & Tools	MS Access, Microsoft SQL Server, Microsoft Access, SQL Profiler, xSQL Bundle(Object & Data Compare)
NoSql	MongoDB
Operating Systems	Windows 7, MAC OS, Linux(Ubuntu)
Software Development Tools	Microsoft Visual Studio 2010-2012, Eclipse, CodeSmith, xSql Bundle(SQL Database Comparism), Evolus Pencil (Wireframing), ArgoUML
Software Version Control	Tortoise SVN(Version control), Git, GitHub

## EXPERIENCE

### Cradle Solution Inc.

- Houston TX

#### Software Engineer II 2010 to present

- Develop and implement webservices for mobile application to ease users daily tasks and functions.
- Lead user requirements gathering, mapping them to system requirements and incorporating changes in the application as required.
- Monitor mission critical application daily processes like database backups and rabbitMQ messaging platform and take necessary actions in order to prevent system downtime.
- Implement Healthcare validation, audit analysis modules using web services
- Maintain and enhance company primary web application built using C#. net, .Net 4.0 & 3.5 framework, Sencha Extjs framework, JavaScript.
- Coordinate and delegate projects and issues burn downs with Jetbtains Youtrack web app
- Document, research, validate and prioritize reported bugs before entering in bug tracking system
- Fix reported bugs while maintaining and improving asp.net web app code to suit clients needs
- Design, deploy and enhance reports using Microsoft SSRS to enable clients report better on their data in the system understand
- Deploy software updates to test servers for QA team
- Coach entry level and junior software engineers on SDLC methodologies, coding tools and OOP software development methods

#### Support staff /Software Engineer I April 2006 to 2009

- Provide tier support for proprietary software for home health clients developed with Ms FoxPro
- Liaise with customers on Technical specifications for software customization
- Participate in process reviews and implementation of changes.
- Setup and maintained company's FTP site to facilitate easy file transfer for onsite support representative
- Setup and maintained company PC hardware and peripherals.
- Designed, developed and maintain in-house 32 bit applications for smooth running of daily operations, client demographics (demographics and license information VB.Net, Microsoft SQL Server 2000/2005 Express, MS Access, TSQL, ODBC stored procedures

**HP/Compaq**  
**Houston, TX**

**Operations Assistant**

**August 2005 to February 2006**

- Daily running of early warning report on SAP Warehouse Order Management module.
- Ordering of computer parts from other warehouse location for billing department.
- Confirmation of customer orders with HP-ShopFloor software

**LOC Software and Management Consultants**  
**Lagos, Nigeria**

**Database Programmer**  
**July.2001- July.2004**

**Project 1:**

Self-Balancing Sales Ledger System (SBSLS) for Pipelines Product Marketing Company (PPMC), a subsidiary of Nigerian National petroleum Corporation (NNPC)

- Responsible for Database Backup and Maintenance of billing system
- Troubleshoot communication flow between client and server computers
- Created reports for SBSLS using Crystal Report writer 6.0 and 8.
- Database development and maintenance using SQL server 7.0 and 2000.
- Developed a client-server application for crude oil jetty lifting with VB 6.0 and SQL server 7.0
- Incorporated third party Active X objects into GUI design using Sheridan data widgets

**Project 2:**

School Information Management System (SIMS) for The Team Educational Consult

- Participated in designing, coding, testing, debugging, configuring, and documenting operating systems and software using UML VB6 and Ms Access
- Created and populated new database environments and determines the need for database modifications; writes and maintains database specifications.
- Scripted and performed data fixes; tests and schedules data fixes appropriately.
- Performed database-tuning configuration to enhance performance and ensure stability.
- Created, revised, and maintained coded database objects including views and stored procedures.

**CERTIFICATION**

-Microsoft Certified Solution Developer (MCSD)  
-Certified Scrum Master (CSM)

**EDUCATION**

**BSc, Computer Science, UNIVERSITY OF HOUSTON-DOWNTOWN**

**2010**
